DESIGNED ESPECIALLY FOR INDIA

*Protecting health and safety
by providing plumbing codes,
standards and education*

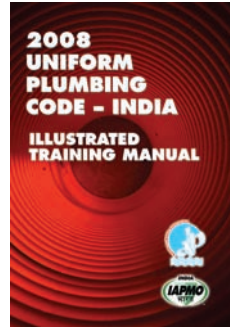

2008 UNIFORM PLUMBING CODE – INDIA

The first ever plumbing code developed by the Indian plumbing industry itself to achieve the nationwide goal of “Better Plumbing for Better Living.” These codes of practice attempt to minimize risk by specifying technical standards of design, materials, workmanship and maintenance for plumbing systems.

Benefits include:

- ◆ Tried and tested international plumbing codes tailored especially for India
- ◆ The best methods for ensuring safe sanitary and plumbing systems
- ◆ The flexibility to adapt for new innovations and technologies
- ◆ Project planning and management made easier
- ◆ Improved co-ordination of sub-contractors
- ◆ Simplifies co-operation with jurisdictional government officials
- ◆ Full support from the Indian Plumbing Association and IAPMO-India

2008 UPC – INDIA ILLUSTRATED TRAINING MANUAL

Based on the 2008 Uniform Plumbing Code – India, this publication is both a primer for novices and a reference for more experienced plumbing professionals; a comprehensive and easy-to-use educational tool. Many of the courses planned by the Indian Plumbing Association, Indian Institute of Plumbing and IAPMO – India follow this manual.

Benefits include:

- ◆ Hundreds of charts and illustrations in color
- ◆ Plumbing dictionary
- ◆ Checklist for inspectors
- ◆ Contains explanations on background of the code requirement
- ◆ Provides insight into why specific code requirements exist
- ◆ Often provides alternative methods to consider
