

# IPA – IAPMO EDUCATION PROVIDERS

The goal of the IPA – IAPMO Plumbing Education to Employment Program can only be successfully met through partnerships with established education institutions throughout India. The program seeks partnerships with Indian Universities, Colleges and Vocational Institutions that can provide quality instruction toward stated goals.

Selected education providers will have met the IPA – IAPMO quality standard, which will assist in providing quality assurance.

## The IAPMO Value Criteria

### *Criteria I Mission*

The institution has a mission that is compatible with the IAPMO-India mission

### *Criteria II Management*

The institution is capably and responsibly managed

### *Criteria III Fiscal Responsibility*

The institution is fiscally sound and demonstrates ethical financial practices

### *Criteria IV Curricula*

The institution's curricular design and materials follow sound educational practices and meet the Accredited Provider criteria established by the IPA – IAPMO Plumbing Education Program

### *Criteria V Instructional Delivery*

The institution utilizes appropriate and effective instructional methods and other resources to ensure sound instructional delivery

### *Criteria VI Instructional Personnel*

The institution ensures that qualified instructors, under professional and capable direction, effectively deliver educational and training services

### *Criteria VII Admissions and Student Services*

The institution recruits and enrolls only qualified students who can reasonably be expected to benefit from the education and training services and provides student services appropriate to their needs

### *Criteria VIII Evaluation*

The institution utilizes appropriate methods of evaluation to ensure that outcomes are consistent with the mission and goals of the education and training. The institution maintains all required documentation.
